VOLUME 38

FRIDAY FEBRUARY 21, 1941

NUMBER 43.

Town Council Committees Organized

The Town Council met in its statutory meeting Monday evening last, and organized committees for the following year and went into a discussion of the estimates and budgets for 1941. The various committees were named, the first being Chairman in each case:

FINANCE: L.R. Pack, M.T. King and E.H. Nilsson.
LICENSE & POLICE: J.A. MacLean, E.H. Nilsson, Wm. Jensen.

LIGHT & WATER: Wm. Jensen, L.R. Pack, J.H.L. MacPhee.

WORKS & PROPERTY: J.H.L. MacPhee, Wm. Jensen, J.A. MacLean.

HEALTH & RELIEF: E.H. Nilsson, L.R. Pack, M.T. King.

There will be no increase in the mill rate for this year. While the levy will not cover the estimated budgets of the Town and School, a real drive will be made to collect the arrears of Taxes outstanding so that no increase will be made on the current assessment. The school asked for \$34,200.00 in their budget which with the Government grant will care for their expenses.

No new assessment will be made this year, but there will be an examination and an assessment of new buildings in the Town erected within the past year.

The meeting adjourned Monday night and finished up its business at a special session on Wednesday evening.

Miss Gladys Holt Queen of Green & Gold Ball

Miss Gladys Holt of the Raymond 2nd Ward was crowned Queen of the Green and Gold Ball at the Taylor Stake Green and Gold Ball Friday night in the Opera House. Her escorts were the Queens of the various wards where the Ward Green and Gold event had been held. A large crowd was present and a very enjoyable evening was spent in dancing.

ROTARIANS: READ

The joint meeting with the Town Council, planned for next Monday evening WILL NOT BE HELD. Instead the Rotary Club will meet in its usual noon luncheon, at the usual time and place. Other arrangements have made the postponement of the Monday evening meeting necessary.

NEWS NOTES

Have you bought your War Saving Certificate this week, or your weekly amount of Stamps?

Henry Sherles is home on a short leave. His wife just came home from the hospital with a new baby to add to the enjoyment of Henry's leave.

If you want your social events published, please give us the details. We have found that hearsay leadeth to trouble. We have a phone and would be glad to get your reports.

Sidney and Franklin Smith were home Tuesday and Wednesday on a short leave and left Thursday morning on their way to Montreal, Que. where they will be employed in an airplane factory. Mrs. Sidney, Jr., and the kiddies will follow soon when the boys have got located.

CHARTER NIGHT AT CARDSTON

The Raymond Lions with their wives, numbering 68 in all, motored to Cardston last Wednesday evening to join with the Cardston Club in Charter Night, always a big night in Lionsism. Members from the Lions Clubs of Lethbridge, Blairmore, Taber, Magrath, and Browning, besides Cardston and Raymond were present to join with the Cardston Club, making an attendance of over 200 there.

A very fine supper was served and enjoyed by the assembly, and after community singing by the group, a program which included a Male Quartette from Magrath, a Ladies Quartette from Cardston, Piano accompaniment by Miss Ellen Cahoon, Comedy skits by Messrs. Gibb and Low, was climaxed by the presentation of the Charter to the Cardston Club by Past District Governor of Browning, and it was accepted on behalf of the Cardston Club by President Bob Shaw.

The speaker of the evening was John H. Blackmore, M.P. and Social Credit Leader at Ottawa who spoke on "Service."

A dance followed for the remainder of the evening, confetti and noise makers aiding the group in having a most enjoyable and long to be remembered evening. Cardston Lions have a membership of 34.

In presenting the budget to the Dominion House Monday the Finance Minister announced that the main estimates had been cut eighteen million dollars. This however did not include the war budget which is estimated at from one to one and a quarter billions of dollars. Pleasant thoughts for the waking hours of Canadians.

Geo. H. Brewerton was home over the week-end and returned to Calgary on Monday to look after the roller rink. We visited the "Music Box" Saturday evening, found it very busy, and George and his helm, the majority of whom are from Raymond happy and gracious to their many patrons.

W. I. MEETING

The regular meeting of the Women's Institute was held at the home of Mrs. A. W. Kirkham on Feb. 13th, with 20 members present.

After singing "O Canada" the creed was repeated, and the roll call was answered with "Hail to Home Remedies," and then the minutes of last month's meeting were read and adopted.

Mrs. B. Nilsson gave a demonstration of rug making, and Mrs. G. Rolfsen led the group in singing "There'll Always be an England," with Miss Afton Christensen at the Piano. Mrs. Wm. Lamb read a paper on "Public Health."

Presents were given to Mesdames F. Shaw, R. J. Webster and F. W. Leavitt all of whose birthdays come in February.

The door prize, donated by Mrs. C. Rolfsen, was won by Mrs. Fraser, and the meeting adjourned with the singing of "God Save the King."

The next meeting will be held March 13th at the home of Mrs. R. J. Webster, and the W. I. Conference will be held in Lethbridge on March 6th and 7th at the Marquis Hotel.

L. L. Palmer New Bishop of 2nd. Ward

Because of his acceptance of Wilford A. Heninger as first and Rulon H. Dahl as second in the group in the Provincial Legislature, and the fact that it will necessitate his being away from home, Bishop J.H. Walker, who has presided over the Raymond Second Ward since 1924, with Wilford A. Heninger and L.L. Palmer as counselors, was released with his counselors at a special meeting at the Second Ward on Sunday, last, with the Stake Presidency in charge. The retiring officers were given a hearty vote of thanks for their past services, and the Stake officers were high in their praise of the work of these men.

In the re-organization, Elders L.L. Palmer, who has acted as second counselor to Bishop Walker was sustained as Bishop and he chose as his assistants

Wilford A. Heninger as first and Rulon H. Dahl as second superintendent of the Ward Sunday School for a number of years, and his new duties will necessitate a change in the Sunday School superintendency but this re-organization has not been attended to as yet.

The Church was packed to capacity for the meeting, and the large audience and the genuine regret manifested on the part of the people showed the esteem in which the retiring Bishop is held by the eleven hundred people who make up the membership of the second ward. We are sure that the progress of the ward will continue under the new Ward executive and we wish them every success and the whole hearted support of the members of the ward.

NEWS NOTES

A number of our boxers were in Aetna Wednesday night and appeared on a card there sponsored by the Cardston A.A.A.

Snow fell Tuesday night and Wednesday, and the weather was cooler with a sharp breeze from the north part of the day. The thermometer however did not get down very much below zero.

Tonight, Friday, the Union Jacks travel to Magrath for their first encounter with the Magrath Lions for the basketball championship of Southern Alberta. A large number of fans will accompany the team on the trip and will be rooting for them.

Another contingent of about 200 Australian and New Zealand airmen arrived in Canada last week end and were assigned to the different schools in Western Canada. The Australian boys have a navy blue uniform, quite in contrast to the pale air force blue of the R.A.F. and Canada.

Even one stamp a week will mean a certificate each three months. Surely you can do that.

Winston Shaw is building a new house just north of the L. L. Pack residence.

Raymond Comets bowed to the Lethbridge Collegiate 37-24 in a regular High School league game in the A division Friday night.

Jack Hervey left Wednesday evening for Vancouver, B.C., for a visit with his son, Marshall, and to recuperate from his recent operation. He is feeling fine but is still unable to resume his work.

According to reports the colored gas for agricultural use will be obtainable about March 1st. This coloring will replace the coupon system, and the purple gas, by which the farm gas will be marked will be sold on a 1c. per gallon tax rate. The tax for cars, buses, trucks, and so on is 7c. per gallon, so the farmer will make 6c. per gallon on his agricultural gasoline.

Poland Under The Gestapo

Life in Poland, in the second winter of occupation, is of increasing severity. There is little to eat. The only foodstuffs in shops are bread, potatoes, linseed oil for cooking. There is neither butter nor margarine. There is neither fruit nor fish. There is almost no meat. Yet in spite of all privations and persecutions, Polish resistance is growing. Mass executions by the Gestapo fail to terrorize.

In Lodz, a Polish technician was imprisoned for publicly talking of "damage by R.A.F. raids on Berlin."

In Lodz, a 17 year old boy was sentenced to ten years imprisonment on the charge of insulting a German official.

In Dortmund, a special tribunal sentenced a Pole to death who had left his work in Germany and resisted arrest.

In a village near Minsk, Germany, three German women were sentenced to 18 months imprisonment for giving food and cigarettes to Polish prisoners of war.

Several Polish priests have died in the Orghenburg concentration camp. Their bodies cremated and the ashes sent to their families.

R.A.F. raids on German industrial centres have forced the

Germans to transfer industrial factories to Poland. Germans attempting to build an ammunition factory in Skarzysk found the headengineer dead. The following day 300 Polish workmen were arrested and, according to advice received by the Polish Ministry of Information, were taken to a nearby forest, forced to dig their own graves and massacred by machine gun fire.

An uncensored letter received in London from Poland speaks of unlimited German cruelty to Poles. "Germans announce clearly," the letter continues, "that Poles were born to serve the German nation; to perform the hardest labor. The result of such behavior is evident. Germans arriving in Poland from the Reich are unbelievably brutal. They ride in automobiles in disregard of pedestrians and cause a large number of accidents. In case of accident, the injured Pole is mistreated and subjected to severe reproach for wasting time. If the automobile is damaged or the driver injured in any way, the Pole is sent to prison. A new regulation in Krakow and Warsaw forbids Poles to enter parks."

Water Storage Board Recently Appointed

ANIS CONTINUES TO GET BUMPED

Britain's African army continues its victorious conquest of Africa, and now is assisted by Ethiopians, who are fighting with all the hate and revenge of the past several years of suppression under the Italian boot. One commentator Wednesday said Ethiopians were inflicting heavy losses with machine gun and rifle fire on fleeing Italian troops which he said was the only way any troops ever had a chance to shoot at the Italians, was when they were on the run. Tripoli is about all Il Duce has left of his once mighty African empire.

Nazi Germany is trying to scare Greece into a peace on Italy's terms. Greece has refused and Britain has let Greece know that she is ready to stand side by side with her if Hitler starts anything in north even Albania. War experts look for a large scale attack by Hitler early in the spring, somewhere, somehow, and it is our opinion, that whatever Hitler does, will prove wrong, because the Allies have been driving ahead on a program to meet any threat.

Buy War Savings Certificates

Fathers And Sons Night

The Fathers and Sons of the Raymond 1st Ward met in the Opera House Wednesday evening in their annual get-together. 100 were present, and sat down to a lovely banquet, prepared under the supervision of Mrs. F. R. Taylor and her corps of helpers.

Pres. Heler F. Allen was Toastmaster and Chairman of the evening and kept the crowd on their toes all evening with his humor and goodwill.

President, T. Geo. Wood spoke on "Good Scouting," and in his remarks Bishop J. O. Hicken spoke of the heroism of Scouts, stating that reports had been received of Boy Scouts in England actually dying at their post of duties, rather than desert it and lay anyone open to danger or attack.

The Chairman introduced L. J. Mehew as the man who had started these Fathers and Sons nights, and with him T. W. Meldrum, C.R. Wing, Roy Woolley and others as boy leaders and men who had done much for the youth of the ward.

The evening concluded with a comic skit on the stage by a couple of the boys and the crowd went home after a most enjoyable evening.

LIONS CLUB MEETING

The Raymond Lions Club met in their regular meeting at the Club Cafe last Monday evening. Gill Evans, recently returned from the mission field was the guest speaker of the evening and talked on "Goering," one of the strong men of the Hitler regime. His talk was interesting and instructive.

Next Monday evening the local Lions and their partners are meeting with the Magrath Lions in an inter-club gathering, and we understand that it will be Ladies' Night in Magrath. A large delegation from the local Club will go to Magrath.

Victor Meek, controller of the Dominion water and power bureau, George Spence, director of the P.F.R.A., and W.E. Hunter, of the accounts branch Department of Finance, Ottawa are a three man board, appointed to study water storage of the St. Mary's and Milk River, based on the United States Canada agreement for the use of the waters of these two rivers.

Their investigation will include a close study of the entire storage plan as far as these two rivers are concerned, and their recommendations will be acted upon by the Dominion Parliament in due course.

Mr. Spence, because of his personal knowledge of conditions over the area that will be dealt with, can advise the Board in all details. It is likely to be a question of the importance of the various works to be constructed as to which will be undertaken first. So far as Southern Alberta and the beet industry is concerned the most crying need right now is additional storage to have water for the late summer months when the flow of the river is always low and when beets wilt and lose weight because of a lack of water to keep them irrigated. This would affect 125,000 acres of Alberta's best land, where water rights already exist, and this storage would be saving tens of thousands of dollars each year for farmers, while necessary works in connection with other projects farther east were under construction.

In view of the seriousness of this situation, it would seem that the Alberta Department of Natural Resources, the South Alberta Water Conservation Council, a delegation from the Coaldale-Raymond-Magrath Irrigation Council, Boards of Trade in the interested areas, and other bodies, should see that the gravity of their case is presented to this Board as soon as possible and all reasonable pressure put on this Board to have this storage program carried through. If we appear too selfish, it is because year after year we see beets sick and wilted looking due to a lack of water, and to the fact, also, that no additional ditches are essential to put 31,000 acre feet of run off water to immediate and beneficial use on land that has been proven over a large number of years of irrigation.

NEWS NOTES

W.A. Heninger has been rather under the weather the past week while he is having some dental work done.

A carload of mitt arists went to Cardston Wednesday night where five of them took part on the card, and four won their bouts. Good enough boys, give it to them.

A branch of the Mackay and Savary Advertising Agency has been opened in Lethbridge with Fred Ribalkin formerly of the Lethbridge Herald staff as office manager. The opening took place the end of last week.

Ye editor and wife were Calgary visitors and attended the funeral of John T. Ross formerly of Warner on Monday. While in the metropolis we met most of the young men and women from Raymond and they were all well and wanted to be remembered to families and friends at home.

A GOOD EXAMPLE

That some Canadians are really lending their support to the War Savings Certificate drive is evidenced by the fact that three local farmers last week delivered 5,000 bushels of wheat to local elevators for the purchase of War Savings Certificates. These are the reports that we like to be able to make and that we like to hear about. These men are prudent. They are assisting their country in its time of need and they are looking to the future when

the money thus loaned will be of great use to them in the time of reconstruction following this titanic struggle.

February is War Savings Certificate month. While the town has been divided for canvassing, it would be a fine thing if townspeople would report without being canvassed, what they are willing to do. Any of the ten committeemen could give them a pledge to sign, or could take the report of their monthly or yearly purchases of these certificates and report to the Chairman. Then too, no matter how carefully the canvasser is made some one is sure to be missed, if we all wait for the canvasser to call. Mr. Canadian, don't wait. Subscribe today. By buying these Certificates, you can have your cake and eat it too if you buy War Savings Certificates. While the money is working for the Government and making interest for you, you can be rejoicing in the fact that your dollars are buying arm-

aments, food, clothing and so on for the boys in the service and keeping Canada safe for you, your loved ones and democracy.

We heard recently of a respected lady of the Town who went to the Post Master and bought a certificate, saving as she did so, "this money was to have bought me a new hat, but I guess the government needs it worse than I need a new hat." We think a very commendable attitude. There are many of us that could do with things we want in order to help the nation at war. True as we curtail our indulgences of luxuries, some one somewhere, is bound to feel it. But, far better put up with less of the things we like now, and preserve our freedom and democracy, than to enjoy all we want to enjoy and wake up some morning and discover that freedom is gone, and in place of it we have dictatorship.

Then too, it is not so much what you can afford, as whether or not you are willing to help. If the government knew that every Canadian was solidly behind the war effort, even if the offering was small, it would have a decidedly beneficial psychological effect on the government in its planning for the prosecution of the war.

We thought Wendell Willkie struck a nice note when he said respecting his visit to England, and his support of President Roosevelt and the lend lease bill "He's my President now." And Willkie was right. The campaign was over, the people had spoken, and President Roosevelt was his President now, as well as the President of every other American citizen. So, with us in Canada. There may be things to criticize, and possibly things are not just as we would like them. But, this is our country. We are at war, and while we are at war every Canadian should do everything possible to assist in the war effort.

PRICE OF THE "NEW ORDER"

What the "new order" planned by a Hitlerized Germany for the world at large has meant in human hardship we know. The new ghettos in Poland, the concentration camps in Austria, Bohemia and even in Germany itself, the scant rations and forced labor tell that story. But it is one of the supreme ironies of the situation that the conquered countries are actually being forced to reimburse Hitler for this undesired remaking of their lives and social systems.

Germany extracts the price of domination in two ways. First, there is the cost of her military occupation, which she assesses on the conquered with out exception. It has been estimated that this cost is perhaps the equivalent of 15 per cent of Germany's whole current war bill. It is divided among six countries, France, Norway, Belgium, Holland, Rumania and Denmark. The last two offered no resistance to invasion, but that makes no difference. The ratio of apportionment seems to be determined solely by "capacity to pay." France's daily assessment is the enormous sum of 20,000,000 reichsmarks — in French currency 400,000,000 francs.

But this measure of the unwillingness of free peoples to submit voluntarily to a new order distasteful to them has not been enough. To maintain material superiority for herself, which is the true goal of the "new order," Germany extracts from the conquered excessive imports according to the ability of each occupied territory to contribute them and survive. Based on national bank returns, it is estimated that this excess of imports over normal exchange has already amounted to 3,560,000,000 reichsmarks in the case of France. Total exploitation of the five conquered countries (leaving out Rumania) by this method is estimated at about five and a half billions of reichsmarks.

Following the break-down in the Dominion-Provincial Relief arrangement, under which the Dominion Government contributed to the cost of unemployment relief, and the announcement by the Dominion that it would not pay any more, the Provincial Government is assuming 80 p.c. instead of the former 40 p.c., leaving the cost to the municipalities the same at 20 p.c. Alberta government officials state it will mean an extra \$800,000 per year for their expense account.

After Mutual Tuesday evening, a welcome home party was held for Elder Isaac Holt. After a short program including a report from the missionary, the evening was spent in dancing.

MOTORISTS BUILT THE ROADS

Motor car owners of Alberta contributed the huge sum of approximately \$49,600,000 by way of special taxation between January 1st, 1922 and March 31, 1939. Adding to that sum prospective receipts from gas taxes and motor licenses for the current year, it is believed that the total is sufficient to cover the entire expenditure by the provincial government over the years mentioned. This expenditure includes construction of highways, ferries and bridges, together with the expenses of departmental administration and maintenance, also interest on the money expended at five per cent per annum.

The motor car owners of Alberta have thus actually built the highway systems out of their own pockets during the years 1922 to 1940 inclusive.

WEEKLY LETTER

PLANTING AND CARE OF A HEDGE

There are three ways by which plants may be started in the establishment of a hedge, namely, by planting seeds, cuttings, or by transplanting the plants themselves. The use of cuttings is not practicable except with trees such as willow or poplar but these are not gen-

erally suited for hedge purposes, particularly in dry districts, from seed sown in the same location where the hedge is to be grown, but a much better policy is to plant seed in the garden, near the edge where it can be left from year to year until ready to transplant in the spring. On dry land, the soil where the hedge is to be grown may be fallowed while the new plants are being started in the garden. In this way, a year can

be saved as compared with direct planting. Summer-fallow is not strictly necessary in irrigated land. Young stock for transplanting may often be obtained from native or cultivated clumps of trees at no cost other than the time and labor needed for digging.

When transplanting, be sure that the plant roots are kept moist at all times, and that the roots are injured as little as possible. Set the plants 15 to 18 inches apart and about one inch lower than they were growing originally. Spread the roots in a position as natural as possible and firm the soil about them with the heel. It is a good policy to thoroughly soak the soil around the roots. Whenever trees are planted, with the exception of evergreens, it is advisable to cut the tops down in proportion to root damage. This is particularly true when planting for hedge purposes as it causes the plants to grow bushier and the hedge to be thicker. Caragana transplants should always be cut back to 4 to 6 inches from the ground and Saskatoon should be cut back completely. It is an easy matter to start a Saskatoon hedge by merely ploughing in roots.

Early care of a hedge consists mostly of pruning back long shoots so the plant will be bushy. Later, care must be taken to maintain the correct shape, which should be as close to the natural one as possible. The top of the hedge must always be narrower than the bottom to eliminate shading out of the lower limbs. Flat top hedges may be grown in this way but round topped hedges are more true to the natural shape and generally will thrive better.

Hedge clipping can be done at any time during the season, but least injury occurs after the period of rapid growth has passed. The wounds will callous over best when pruning is done in early July and later, rather than when the tree is dormant or is growing actively.

To keep soil fertility at its best it is a good plan to apply a top dressing of manure to the soil each fall and rake it into

ENROLL MONDAY MORNING

Four Presidents of The Canadian Pacific Railway

Photographs of the four presidents are shown above, left to right: Rt. Hon. Lord Mount Stephen, G.C.V.O.; Sir William Van Horne, K.C.M.G.; Rt. Hon. Lord Shaughnessy, K.C.V.O.; and Sir Edward Beatty, G.B.E., K.C., LL.D.

The four presidents who have guided the destinies of the Canadian Pacific Railway Company since its birth sixty years ago have been men whose courage and ideals are reflected in the high type of service given to the people of Canada and in the growth of the company in this period.

Lord Mount Stephen, the organizer; Sir William Van Horne, the builder; Lord Shaughnessy, the developer; and Sir Edward Beatty, the modernizer, succeeded in that order to the presidential chair. Strong men, possessing great love for Canada and great hopes for her future, they differed vastly in character and abilities but each seemed born for the particular term of office he occupied, able to meet the peculiar problems of his time, with the ability and strength of will to discharge his duties faithfully to company and nation.

The Canadian Pacific Railway Company was born on February 15, 1881, when the Government of Sir John A. Macdonald authorized the building of the transcontinental line, and was officially organized two days later. Since that day the company and nation both developed from infancy to prosperity and strength. Each has been largely responsible for the growth of the other, sharing the same fate and years, co-operating for the mutual benefit of each other. Canada had to have a transcontinental railway and gave a private company approximately \$77,000,000 to build one. In return the Canadian Pacific Railway provided the line, helped populate the prairies, provided sixty years of the highest standard of service and in the same period paid approximately \$172,000,000 to the tax authorities within the Dominion.

Georges Stephen became the company's first president on February 17, 1881. His was the task of financing the project; to attract investors under unfavorable circumstances because ten years of government effort to build the line had placed the whole thing in bad odor; to borrow from the government, which was even more difficult; to fight off the creditors; to bear the brunt of the most bitter opposition from political and business enemies. The line was completed in 1885, the first through train was operated in 1886 and he resigned in 1888, his health undermined by the terrific strain of the task. He became a baronet in 1886, was elevated to the peerage in 1891 and was created a G.C.V.O. in 1905.

W. C. Van Horne was the practical railroader, the man whose sheer willpower drove the line to completion in five years, half the stipulated time. When he became president in 1888 the problem was to secure business and traffic connections. In his term of office the mileage increased from 5,074 to 7,982, the right-of-way was improved for more economical operation, the steamship service to the Orient was inaugurated, hotels were built and business secured and the gross earnings increased from \$13,195,000 in 1888 to \$29,230,000 in 1899. He was made a Knight Commander of St. Michael and St. George by Queen Victoria in 1894.

T. G. Shaughnessy's early work with the company was as general purchasing agent and his policy of price, quality and rapidity of delivery was one that remained with him and governed his business dealings throughout his life. In his term as president, from 1899 to 1918, the prairies were settled and developed, a steamship service was inaugurated on

the Atlantic and the first Great War fought. Gross earnings increased, and in 1918 reached \$157,357,000. The mileage increased to 13,772 and the assets from \$279,418,000 to \$1,055,273,000 during his period of office. Shaughnessy was knighted in 1901, made a K.C.V.O. in 1907 and raised to the peerage with title of Baron Shaughnessy in 1916.

Edward Wentworth Beatty became president on October 10, 1918, when still less than 40 years of age. His regime has seen the most marked advancement in equipment and operating methods, bringing the company to the peak of its power and efficiency, and has been featured by his unceasing attempt to rationalize the severest sort of artificially created competition caused by the government railways, the highways and subsidized canals. More than ever before the Canadian Pacific Railway has become a public servant, its whole force being devoted to the advancement of Canada. Sir Edward became president in the last months of the Great War, led the company through the post-war depression and the greatest period of prosperity and worst depression the world has ever known. He is now giving intelligent and strong leadership under the changed conditions caused by the present war. He has been active in a score of other companies, has lent his full support to all organizations working for national improvement and is now serving as representative in Canada of the British Ministry of Shipping. Of the many honors conferred on this dynamic leader, the most important came to him in 1935 when he was made a Knight Grand Cross of the Most Excellent Order of the British Empire.

\$ 5.00 for \$ 4.00	\$10.00 for \$ 8.00
\$25.00 for \$20.00	\$50.00 for \$40.00
\$100.00 for \$80.00	

War Savings Certificates are a direct obligation of the Dominion of Canada, repayable in 7½ years. At the end of that time your investment will have increased twenty-five per cent., which represents interest at 3% compounded half-yearly.

They may be redeemed at option of registered owner, after six months from date of issue at an established scale of values.

The following table represents an average basis of saving. These figures are only illustrative, as the amount of saving which is possible will vary according to each individual's family and other economic circumstances.

Earnings Per Week	Savings Per Week	Maturity Values of Annual Purchases
Up to \$20	25¢ to \$1.00	\$ 15 to \$ 65
\$20 to \$30	\$1.25 to \$2.00	\$ 60 to \$120
\$30 to \$40	\$2.25 to \$3.50	\$145 to \$225
Over \$40	\$3.75 to \$9.25	\$245 to \$600

FALL IN! The line is forming. Close the ranks. Answer His Majesty's call. Every man, woman and child in Canada has a duty to perform. Some will fight. You, too, have a job to do. It may demand sacrifice. You are called on to help furnish the munitions needed to win the war... guns and tanks for the army... planes for the air force... ships for the navy and merchant marine. Guns and tanks and planes and ships cost money. You are not asked to give—you are only asked to LEND your money. This is something you can do... something you must do.

There is only one place to get the money Canada needs to win this war—from the people of Canada. A large part will come from business firms and people with large incomes. They will pay high taxes and buy heavily of War Loan Bonds. But more money is needed... a great deal more. \$10,000,000 a month is expected from men, women and children who invest in War Savings Certificates.

Work hard. Earn more. Save all you can and lend your savings to Canada. BUY WAR SAVINGS CERTIFICATES. Budget to buy them regularly. Buy them every week... every month... as long as the war lasts. You will be forming a good habit... the saving habit... a habit that will benefit you when victory is won. You will be doing a real job in helping to win the war.

the soil—this done, success should crown your efforts.

"Nobody will the wiser be if I kiss you."
"Then don't. I'm after an education."

Mrs. Jones: "Two of my daughters are working girls."
Mrs. Smith: "Huh! Two of mine are working men."

First co-ed: "How are you getting along in botany?"
Second co-ed: "Fine. I get the professor up a tree."

Doctor: "The best exercise for your wind is skipping the rope."
Contractor: "Doc, I refuse to give up cigars."

Bishop L.L. Palmer and wife and counselor Nelson Dahl and wife were at the Temple Wednesday afternoon and evening.

When Hitler invited people to send in suggestions and requests for radio program they would like to hear, he really stuck his neck out. He invited them to be sent collect, with a 25 word maximum. Amongst requests reorted so far are a word by word description of his funeral, a play by play story of the bombing of Berlin and many messages showing the Führer that Americans think he is a heel. Extra help was needed by the Radio Corporation of America to handle the flood of messages, which it was estimated would cost the Reich about a quarter million.

CREDIT UNION REPORTS HEARD

The Raymond Sugar Makers' Savings and Credit Union held its first annual meeting on Saturday, in the town hall.

The reports given show that from its organization on April 16, 1940, until Dec. 31, 1940, the union has acquired some 80 members, all employees of the Canadian Sugar Factories, Ltd.

Its capital has reached \$2090 at \$5 per share, and during the eight months it has granted 61 loans to its members totalling \$8592.67. A dividend of three per cent. was declared at the annual meeting.

The organization has the full support and co-operation of the Canadian Sugar Factories management and is supervised by the government, and every thing done must have government approval.

The employees subscribe each month, and members are the only ones privileged to borrow from the organization. The money does not pay interest to shareholders except on loans made.

Directors are appointed by the members through ballot, and they in turn appoint officers.

The directors of the Raymond Sugar Makers' Savings and Credit Union are: John Miller, C.A. Finch, F.H. Turner, J.A. McLean and J.L. Kerney.

Officers chosen are John Miller, president; C.O. Naider, manager and treasurer; Kay B. Redd, secretary, with credit committee consisting of L. B. Duncombe, L. R. Pack and John Miller, and supervisory committee of S.C.N. Grey, John Landysheff and Jack Vanderbilt.

One-third of the directors and officers are elected or appointed for three years, one third for two years, and the remaining one-third for one year.

An aunt said to her niece, "Don't you think we ought to pull our shade down, or has that fellow across the way a nice face?" And the niece answered, "I don't know, I've never seen it without binoculars in front of it."

WHERE GERMANY RULES

Where the Germany army goes, the ration card is sure to follow.

Nor are restrictions on food consumption confined to countries normally dependent on seaborne importations of essential foods. The German conception of fair treatment of conquered nations follows, broadly speaking, the following lines: no country however rich in agricultural resources deserves a higher standard of living than the standard of Germany; countries which cannot, out of their own resources, supply their populations with food allowances equivalent to the German rations, have to live on less; and only in countries where the available supplies are not sufficient to cover bare necessities of life is some relief granted out of the German food pool.

Denmark normally exports more butter than any European country. Yet butter has been rationed in Denmark on the basis of 12.3 ounces per head per week.

In Norway, the wholesale price of salted herrings has risen 80 per cent. There is already a dearth—due to continued German demands for increased fish deliveries.

In Holland, which normally exports its egg surplus to the larders of both Great Britain and Germany, eggs are rationed at one egg per person per week.

Food control in France increases in severity. In Paris, in the Continental press, a few incidents as reported potatoes are rationed at two pounds per week.

A German soldier killed a Norwegian sailor with his bayonet at Molde when the sailor made remarks against him when he was with a Norwegian girl in the town park. The German soldier was not punished. Three thousand people, many of whom had come from afar, attended the funeral.

A Dutchman threw a beer-glass at a German soldier in a cafe, seriously injuring him. He was sentenced to 3 years imprisonment. Three young Dutchmen, under the impulse of enmity to the German forces, took the caps of German officers from a restaurant cloak-room and tore them to pieces. They were sentenced to 17 months imprisonment. The German court stated: "Certainly a mild sentence for this great insult." — Detsche Zeitung in den Niederlanden, Amsterdam.

**AGAINST DISEASED
POTATO CROPS!**

PLANT Canadian Certified Seed Potatoes in clean land—on part of the farm where potatoes have not been grown before.

Produce bigger yields of potatoes that are more uniform in size, smoother, cleaner, of better quality than those grown from ordinary seed stock and avoid many of the losses that result from disease. Grow potatoes that will grade Canada No. 1.

Good seed potatoes cannot be selected by appearance alone — The best assurance of getting good seed is to buy Canadian Certified Seed Potatoes. Ask the District Government Inspector, Plant Protection Division, for full information and list of nearest distributors.

A New Valuable
TOOL IN EDUCATION

Recent tests, conducted by prominent educators, have shown parents, educators, and students that the portable typewriter is a most valuable educational tool. In a dramatic two years series of tests they have proven that most children improve grades as much as 14% when using a portable typewriter. An unexpected outcome was that, in addition to betterment in Composition, Geography, History, Science and even Arithmetic, self expression became easier even for shy students! You, too, can have this marvelous educational aid—for Remington Rand makes it easy to get! Only a small deposit, and terms as low as 10c a day, will bring you the Remette Portable, other models a trifle higher. Read what prominent educators say about student use of typewriters. Send for Free Booklet.

Remington
